BY REVIEW LEASED WIRE

NEW YORK, Aug. 8.—The stock market gave every indication today of a disposition to shake off its recent lassitude and mount to higher levels. Settlement of the local labor troubles, easier money and other favorable auguries contributed to the sudden accession of bullish sentiment. Prices were at their best in the final hour but reacted here and there on publication of the government crop report.

Official figures bore out recent estimates of serious damage to corn and spring wheat, the former showing a condition on August 1 of 75.3 against 82 a month ago, while wheat's condition was placed at 63.4 against 89 on July 1. Other grains and cereals disclosed more or less deterioration though generally above the 10 year average.

There were moments of strength in Reading, Union Pacific and a few other important rails, together with minor shares like Denver and Rio Grande common and preferred.

United States Steel mounted to 87 and disclosed a mere fraction under that figure, the stock showing signs of steady accumulation in the forenoon when it led all others. There were additional gains in the paper issues on highly prosperous trade conditions and Petroleum better despite further price reductions.

Miscellaneous stocks, including some coming within the category of issues were 1 to 2 points higher, but munitions and motors were relatively backward. Total sales of stocks amounted to 255,000 shares.

Bonds were irregular. Total sales par value \$2,920,000. United States bonds were unchanged on call.

CHICAGO GRAINS.

CHICAGO, Aug. 8.—Although the government crop report turned out to be more bullish as to wheat than even radicals had expected, bearish misgivings concerning wheat would be shown ruled the market most of the time today, and were only overcome late in the session by word of liberal European purchasing and by advice that black rust danger in Canada was becoming worse. The market closed firm, 1-4 to 5-8 net higher with September 1.23 5-8 and December 1.27. In corn, the outcome ranged from 1-4 decline to 3-4 @ 7-8 advance, oats finished 1-4 to 1-4 @ 3-8 down, and provisions up 5c to 57 1-2.

As the government crop report is based on conditions no later for the most part than July 28 and as much of the damage to spring wheat had not developed until after that date, the trade as a rule was disposed at first today to be extremely cautious without excepting estimates that the total yield to be predicted by Washington would be as low as 675,000,000 bushels, few if any, traders were prepared for the total announced after the close, 21,000,000 bushels still less in quantity.

The fact that Liverpool quotations were lower and that cable advices said buyers seemed to be holding off until after the issuance of the Wash-

ington report was a further discouragement to the bulls.

Later, however, it began to appear that Europeans were buying on a big scale, especially at Winnipeg.

In corn as in wheat, the guesses went wrong regarding the government report. The Washington figures as to oats proved to be less bullish than expected.

Provisions scented owing to higher quotations on hogs. Lard was under much selling pressure for a while, but later showed evidence of good demand.

BOSTON, Aug. 8.—There was a very good demand for the coppers today and the offerings continue light. Buy these coppers right here for a good advance.

The government crop report was issued today and shows condition of wheat poor. The traders may make an attempt to unsettle the market on account of this report but would buy them on any setback. Stocks are in strong hands and will not come out very easy.
